

**Continuing and Distance Engineering
Education
Webinar**

**Tuesday, February 13th
12:30 p.m. to 1:00 p.m.**

The Continuing and Distance Engineering Education (CDEE) program gives students the ability to pursue a masters level degree in several engineering concentrations, to improve their skills in cutting-edge subject areas through our certificate programs, or to develop in-depth knowledge in areas tailored to their needs or the needs of their employers.

Please join us on Tuesday, February 13th from 12:30pm-1:00pm for our Continuing and Distance Engineering Education webinar to learn about our flexible programs that allow professional engineers to enhance their skills based on employer needs:

Please follow the link below for additional information and to rsvp for the event.
