2018 Corporate Networking Night

The 2nd Annual Corporate Networking Night (CNN) will be held on Monday, September 17, 2018 from 5-7pm in the UConn Alumni Center Great Hall in Storrs, Connecticut. Hosted by the UConn Chapter of the National Society of Black Engineers (NSBE), students from the Society of Women Engineers (SWE) and Society of Hispanic Professional Students (SHPE) are also invited to attend this event. CNN offers students of these organizations the ability to connect with corporate partners, build connections, and learn more about how their education will apply in the workforce. The event allows businesses with an affirmative corporate commitment and mission to employee diversity and inclusion the opportunity to meet students and engage in personable conversations over light refreshments.

Join us as a networking partner and experience the difference participating makes. This event attracts highly motivated, exceptional engineering students, representing various majors and interests across the school. We look forward to you joining us!

About Our Host Organization
The National Society of Black Engineers:
With more than 500 chapters and nearly 16,000 active members in the U.S. and abroad, the National Society of Black Engineers (NSBE) is one of the largest student-governed organizations based in the United States. NSBE, a 501(c)(3) nonprofit organization founded in 1975, supports and promotes the aspirations of collegiate and pre-collegiate students and technical professionals in engineering and technology. NSBE’s mission is “to increase the number of culturally responsible Black Engineers who excel academically, succeed professionally and positively impact the community.”

Other Participating Student Groups
The Society of Women Engineers:
For more than six decades, SWE has given women engineers a unique place and voice within the engineering industry. Our organization is centered around a passion for our members’ success and continues to evolve with the challenges and opportunities reflected in today’s exciting engineering and technology specialties. SWE’s mission is to “Stimulate women to achieve full potential in careers as engineers and leaders, expand the image of the engineering profession as a positive force in improving the quality of life, and demonstrate the value of diversity.”

The Society of Hispanic Professional Engineers:
The Society of Hispanic Professional Engineers (SHPE) was founded in Los Angeles, California, in 1974 by a group of engineers employed by the city of Los Angeles. Their objective was to form a national organization of professional engineers to serve as role models in the Hispanic community. The concept of Networking was the key basis for the organization. SHPE quickly established two student chapters to begin the network that would grow to encompass the nation as well as reach countries outside the United States. Today, SHPE enjoys a strong but independent network of professional and student chapters throughout the nation.
