BME Seminar

Friday, January 23rd, 2015  *Note new location!

JRB 204 at Storrs & Videoconference to UCHC CG-079B
12:00-1:00 pm  *Refreshments will be served*

“Be A Now Person: The Center for Career Development & You”
*Presented By: Kay Kimball Gruder, Career Consultant – UCONN Graduate School*

“Why Graduate School and How to Fund Your Graduate Education“
*Presented By: Aida Ghiaei, Program Manager, Graduate Outreach & Diversity, UCONN*

“Ethical Issues in Engineering Research”
*Presented By: Dr. Rajeev Bansal, Professor and Department Head, Dept. of Electrical and Computer Engineering*

**Abstract (Gruder):** One’s career success is a combination of knowing and doing. At this session undergraduate and graduate student attendees will gain insight into resources and services provided by the Center for Career Development, with opportunity to identify actionable items that will strengthen their career preparation and enhance the job search process.

**Abstract (Ghiaei):** Aida Ghiaei is the program manager for graduate outreach and diversity at the SoE. Have you been wondering what to do after graduation? Have you been interested in graduate school but you don’t know what to do about it? In her short presentation she will talk on how to prepare for graduate school and when to start. Aida will present various fellowships opportunities available at the SoE, UConn Graduate school and other resources and finally how to apply for funding.

**Abstract (Bansal):** This presentation will introduce graduate students to the rules of conduct as they relate to education, research, and scholarship, how to avoid improprieties, and how to resolve problems when they arise. The primary focus will be on professional issues dealing with authorship, reviews, confidentiality, etc.
