Thursday, March 21, 2013
3pm – 4pm
Learn about the UConn/JAX genomic medicine collaboration and the Technology Incubator Program from the leadership of the UConn Institute for Systems Genomics, the Jackson Laboratory and UConn Economic Development.
Meet UConn and Jackson Laboratory genomics researchers. Explore current research and collaborative opportunities for clinical applications of next generation sequencing, microarray profiling of human cancer, disease-specific stem cells, advancing personalized medicine and more.

4pm – 6pm
Social Networking & Lab Tours

Venue:
University of Connecticut Health Center,
Cell and Genome Sciences Building,
400 Farmington Avenue, Farmington
