Thomas P. Pastor, P.E.
Vice President
HSB Global Standards
(subsidiary of the Hartford Steam Boiler Inspection and Insurance Co.)

presents

An Introduction to Codes & Standards

Wednesday, February 22\textsuperscript{nd} at 12:00 PM
Dodd Center – Konover Auditorium

Abstract: The presentation provides an introduction to ASME and its standards and certification process. Topics include why we have standards, the process for creating them, and who is responsible for maintaining them. The course also outlines ASME’s role in developing and maintaining standards as well as how ASME certifies organizations in the application of these standards.

Presenter Bio: Mr. Pastor is currently a Vice President for HSB Global Standards, a subsidiary of The Hartford Steam Boiler Inspection and Insurance Co. For 20 of his 25 years at HSB, he has managed the Codes & Standards Group. He holds a B.S. and M.S. in Civil Engineering from the University of Connecticut, is a licensed Professional Engineer in the states of Connecticut and Indiana, and holds a National Board Commission. His technical expertise is in the area of stress analysis and pressure vessel design.

Mr. Pastor currently serves on several ASME committees. He is Vice-Chairman of the Boiler and Pressure Vessel (BPV) Technical Oversight and Management Committee and a member of BPV-VIII and Subgroup Design of BPV-VIII. He is also a member of the ASME Board on Pressure Technology, the BPV Administrative Committee and the ASME Council on Standards and Certification. He has presented over 75 courses in pressure vessel design to audiences around the world.
